

BRAKE PROS / AP RACING BIG BRAKE SYSTEM INFO SHEET

Part# [AP5200R](#) (Red Caliper / Black Script)

Part# [AP5200](#) (Black Caliper / Yellow Script)

Applications for AP5200R / AP5200 Front Big Brake Kits:

- 2005-2008 Ford F250 Super Duty 4WD
- 2005-2008 Ford F350 Super Duty 4WD
- Matching *Rear Rotors* also available - Part# [FOR5850XS](#)

Notes:

- Download the [Brake Fitment Profile](#) to confirm wheel clearance!
- Compatible with OE ABS, Traction Control and Stability systems and factory master cylinder

Calipers:

AP Racing 6 Piston Caliper (CP5555)

- Lightweight, pressure cast aluminum alloy 2-piece body for better pedal feel than typical monoblock calipers
- Fixed radial mount for minimal caliper flex
- Hard anodized then finished with a tough 2-part paint system
- Differential piston bores minimize pad taper and maximize braking efficiency
- Secondary dust seals for everyday use
- Anti-Rattle clip to eliminate pad knock

Rotors:

AP Racing 378mm x 35.5mm (15" x 1.4")

- Two-piece modular rotor with aluminum hat
- Directionally curved vanes for maximum cooling
- Cross-drilled and slotted for aggressive pad bite and better face cooling
- Slotted only rotors optional

Brake Pads: **Mintex Xtreme Motorsport Compound**

- Xtremely high friction for race pad stopping power
- Excellent grip -- from cold to over 1300°F (700°C)
- Linear & predictable under all conditions

Brake Lines and Hardware:

- Stainless steel outer braid with PTFE inner liner (DOT Compliant)
- High performance hardware included

Brackets:

- Steel caliper mounting brackets for maximum strength and stiffness
- Plated for durability and corrosion resistance
