

Brake **Pros**

P r e c i s i o n B r a k i n g S y s t e m s

BRAKE PROS / PBR BIG BRAKE SYSTEM

Part # 30-8000

Application: 1995-2004 Nissan Maxima
2002-2005 Nissan Altima

Notes:

- Download the brake profile to confirm wheel clearance.
- Compatible with OE ABS and brake master cylinder.

Front: PBR 2 Piston Caliper

- Lightweight cast aluminum.
- Sliding mount with guide pins for minimal caliper flex.
- Twin 38mm pistons.
- Anti-rattle springs reduce pad noise.
- Inner wiper and dust seals for everyday use.

Brake Pros Rotors (330mm x 28mm)

- Directionally curved vanes vented for maximum cooling.
- Cross-drilled and Slotted for aggressive pad bite and proper out-gassing.
- One piece disc with black painted bell.
- Gold Zinc Plated (corrosion protection).

Brake Pad

- Pad area 53.2cm squared per caliper.
- Pad material designed for high performance street and track use.
- Consistent friction of coefficient at low and high temperatures.

Brake Lines and Mounting Hardware

- Stainless steel outer braided line w/ PTFE inner.
- DOT (FMVSS-106) Certified to 3000psi, TUV approved.
- Aircraft grade 8-10.9 hardware provided.
